License Nos. 37-00030-02  
37-00030-08

Abraham Ferdas  
Director, Division of Hazardous Site Cleanup  
U.S. Environmental Protection Agency Region III  
1650 Arch Street (3HS00)  
Philadelphia, PA 19103

SUBJECT: SAFETY LIGHT CORPORATION

Dear Mr. Ferdas:

This letter is a follow-up to the July 8, 2004, telephone conversation with Frank Costello and Marie Miller of my staff with you and Dennis Carney of your staff regarding the Safety Light Corporation's (SLC) Bloomsburg, Pennsylvania site. As was discussed, the NRC staff has actions pending for which we request EPA comments.

We have received by letter dated April 22, 2004, a request to renew the NRC License Nos. 37-00030-02 and 37-00030-08 for the SLC site. We have initiated review of the SLC requests (Enclosures 1 and 2) and will request additional information to supplement the SLC renewal application. We have also announced in the Federal Register dated June 30, 2004 (Enclosure 3) the receipt of these applications and the opportunity to request a hearing. We are requesting your comments to assist in our review of this licensing action including SLC's request to be exempt from the NRC required decommissioning funding plan. We would benefit from a description of the actions that could be taken if the site would, at some point, become a federal liability. We understand that under the existing EPA Administrative Order of Consent with SLC, certain emergency actions could be taken to stabilize and secure the site.

The SLC site is one of NRC's more complex decommissioning sites. The NRC staff recommendations and review of alternatives will be detailed in a Commission Paper. To fully inform the Commission, we believe it is important to include EPA's views. So that we may consider your comments, we would appreciate receipt of your comments by August 16, 2004.

Lastly, a predecisional enforcement conference between NRC staff and SLC has been scheduled for July 20, 2004. This conference is a closed meeting, but we have arranged for representatives from your office and the Pennsylvania Department of Environmental Protection to observe these discussions.

A. Ferdas

RE: License No. 37-00030-02, Renewal

Dear Mrs. Miller:

Safety Light Corporation hereby request renewal of subject license.

We are requesting an expiration date of December 31, 2009.

Condition 16. This should be modified to reflect that we are again requesting an exemption of the decommissioning funding plan. In the renewal request for license no. 37-00030-08, reasons for granting this exemption and renewing our license are explained.

The undersigned should be contacted with any questions concerning this renewal application.

Very Truly Yours,

  
Larry Harmon,  
Plant Manager

RECEIVED  
REGION 1

Reference: License #37-00030-08

Dear Ms. Ulrich,

We hereby submit our application to renew our Nuclear Regulatory Commission License #37-00030-08. As granted with our previous renewal, we respectfully request a continued exemption from the decommissioning funding requirements of 10 CFR 30.35.

In consideration of this request, we submit the following:

1. Despite a very difficult business environment, we have thus far contributed an additional \$339,000 into our Decommissioning Escrow Fund. While this amount currently represents a deficiency of \$72,000, we are working diligently to make up this shortfall and have committed to include additional sums with our current monthly payments as we are able. Whatever balance remains at the end of our current license period will continue to be paid with additional escrow payments during our next license period until this deficiency is made up, bringing our total contribution attributable to our current license to \$492,000.
2. We have tackled the remediation of the underground silos which, as agreed by all parties, represented the greatest potential threat to public safety at our site. In this effort, to date we have spent more than \$1,600,000.

While we continue to work toward a solution for the long term disposition of some of the waste, the silos and their contents have been removed from the ground, the waste has been sorted and segregated to the fullest extent possible, one truckload of waste has been removed from the site, and the balance is properly stored in appropriate containers on site. The threat to the

ML0413103 28  
Enr (2)

## SAFETY LIGHT CORPORATION

public posed by the potential migration of this waste from the underground silos has been eliminated.

3. As outlined in our letter of December 10, 2003 regarding Condition 18 of our License, at present we have 16,731 curies of tritium waste on site. This material remains on-site due to our joint decision to concentrate our limited financial resources on the completion of the silo remediation project.

Despite the fact that it is only our 08 licensed activities that generates any cash flow from which we contribute toward the Escrow Fund, to date all available funds have been expended on the 02 license clean-up. Although we are not certain that a disposal option exists for all of the waste generated by the 08 license, this could have been addressed and can certainly be addressed in the future if we decide to use our available funds here rather than divert them for use in the 02 license remediation and disposal activities.

*I thought they were out of \$?*

4. We have continued the required environmental monitoring of the site, maintained the perimeter fencing and provided the appropriate security during these times of heightened national concern.
5. We have run all operational programs in full compliance with the requirements of our License.
6. At this time, there are more than 40 people employed at the site with an annual payroll approaching \$1,000,000 (including SLC and USR Metals). Without a renewal of our license, we would be forced to cease operations and lay-off all of our employees. This would cause an economic hardship on our employees, their families, and the community.

Additionally, our operations contribute more than \$2,000,000 annually in raw material purchases which obviously impact not only our local economy but also all of our vendors.

During the next License period we will continue to work toward a satisfactory long term solution for the remaining silo waste currently stored on site. Once this is completed, subject to the availability of funds, we will then undertake additional site remediation based upon our mutual agreement concerning what to do next.

We will keep the property secure while continuing our program of environmental monitoring.

## SAFETY LIGHT CORPORATION

Additionally, while we recognize the need for continued funding of the escrow account, it is clear from our current situation that we were too aggressive with our commitment during the last license renewal. The economic downturn made it impossible for us to keep up with our obligation and caused us to fall behind by \$81,000. Although this shortfall has recently been reduced to \$72,000 as stated above, we recognize that we cannot commit to the same levels of funding as before and be confident in our ability to meet our obligation. We therefore propose to contribute \$5000 per month for the 60 month renewal period from January 2005 through December 2009. This will add an additional \$300,000 to the Escrow Fund.

Safety Light has a long history of achievement in the emergency lighting business. On behalf of our employees and the customers we serve, we respectfully request that you grant our renewal request.

We appreciate your consideration.

Regards,

Vice-President

take reasonable steps to provide meaningful access to federally assisted programs and activities for LEP persons, the Endowment will look favorably on intermediate steps recipients take that are consistent with this Guidance, and that, as part of a broader implementation plan or schedule, move their service delivery system toward providing full access to LEP persons. This does not excuse noncompliance but instead recognizes that full compliance in all areas of a recipient's activities and for all potential language minority groups may reasonably require a series of implementing actions over a period of time. However, in developing any phased implementation schedule, recipients should ensure that the provision of appropriate assistance for significant LEP populations or with respect to activities having a significant impact on the health, safety, legal rights, or livelihood of beneficiaries is addressed first. Recipients are encouraged to document their efforts to provide LEP persons with meaningful access to federally assisted programs and activities.

In cases where a recipient of federal financial assistance from the Endowment also receives assistance from one or more other federal agencies, there is no obligation to conduct and document separate but identical analyses and language assistance plans. The Endowment, in discharging its compliance and enforcement obligations under Title VI, will look to analyses performed and plans developed in response to similar detailed LEP guidance issued by other federal agencies. Accordingly, as an adjunct to this Guidance, recipients may, where appropriate, also rely on guidance issued by other agencies in discharging their Title VI LEP obligations.

In determining a recipient entity's compliance with Title VI, the Endowment's primary concern is to ensure that the entity's policies and procedures overcome barriers resulting from language differences that would deny LEP persons a meaningful opportunity to participate in and access programs, services, and benefits. A recipient entity's appropriate use of the methods and options discussed in this policy guidance is viewed by the Endowment as evidence of that entity's willingness to comply voluntarily with its Title VI obligations.

## NATIONAL SCIENCE FOUNDATION

### Information Collection Activities: Proposed Collection; Comment Request

AGENCY: National Science Foundation  
ACTION: Notice.

**SUMMARY:** Under the Paperwork Reduction Act of 1995, Pub. L. 104-13 (44 U.S.C. 3501 et seq.), and as part of its continuing effort to reduce paperwork and respondent burden, the National Science Foundation (NSF) is inviting the general public and other Federal agencies to comment on this proposed information collection.

**DATES:** Written comments on this notice must be received by August 30, 2004, to be assured of consideration. Comments received after that date will be considered to the extent practicable.

**ADDRESSES:** Submit written comments to Bijan Gilanshah, Assistant General Counsel, through surface mail (National Science Foundation, 4201 Wilson Boulevard, Room 1265, Arlington, Virginia 22230); e-mail ([bgilansh@nsf.gov](mailto:bgilansh@nsf.gov)) or fax (703-292-9041).

**FOR FURTHER INFORMATION CONTACT:** Call or write, Bijan Gilanshah, Assistant General Counsel, at the National Science Foundation, 4201 Boulevard, Room 1265, Arlington, Virginia 22230; call (703) 292-8060, or send e-mail to [bgilansh@nsf.gov](mailto:bgilansh@nsf.gov).

#### SUPPLEMENTARY INFORMATION:

**Title of Collection:** Antarctic emergency response plan and environmental protection information.  
**OMB Approval Number:** 3145-0180.  
**Expiration Date of Approval:** August 31, 2004.

**Abstract:** The NSF, pursuant to the Antarctic Conservation Act of 1978 (16 U.S.C. 2401 et seq.) ("ACA") regulates certain non-governmental activities in Antarctica. The ACA was amended in 1996 by the Antarctic Science, Tourism, and Conservation Act. On September 7, 2001, NSF published a final rule in the Federal Register (66 FR 46739) implementing certain of these statutory amendments. The rule requires non-governmental Antarctic expeditions using non-U.S. flagged vessels to ensure that the vessel owner has an emergency response plan. The rule also requires persons organizing a non-governmental expedition to provide expedition members with information on their environmental protection obligations under the Antarctic Conservation Act.

**Expected Respondents:** Respondents may include non-profit organizations and small and large businesses. The

majority of respondents are anticipated to be U.S. tour operators, currently estimated to number twelve.

**Burden on the Public.** The Foundation estimates that a one-time paperwork and recordkeeping burden of 40 hours or less, at a cost of \$500 to \$1400 per respondent, will result from the emergency response plan requirement contained in the rule. Presently, all respondents have been providing expedition members with a copy of the Guidance for Visitors to the Antarctic (prepared and adopted at the Eighteenth Antarctic Treaty Consultative Meetings as Recommendation XVIII-1). Because this Antarctic Treaty System document satisfies the environmental protection information requirements of the rule, no addition burden shall result from the environmental information requirements in the rule.

Dated: June 25, 2004.

Lawrence Rudolph,  
General Counsel, National Science  
Foundation.

## NUCLEAR REGULATORY COMMISSION

[Docket Nos. 03005980 and 03005982]

**Notice of License Renewal Application  
for Safety Light Corporation,  
Bloomsburg, PA and Opportunity to  
Request a Hearing**

AGENCY: Nuclear Regulatory  
Commission.

ACTION: Notice of license renewal  
applications request and opportunity to  
request a hearing.

**DATES:** A request for a hearing must be  
filed by August 30, 2004.

**FOR FURTHER INFORMATION CONTACT:**  
Robert Prince, Division of Nuclear  
Materials Safety, U.S. Nuclear  
Regulatory Commission, Region I, 475  
Allendale Road, King of Prussia,  
Pennsylvania 19406; telephone (610)  
337-5376 or e-mail [rjp4@nrc.gov](mailto:rjp4@nrc.gov).

#### SUPPLEMENTARY INFORMATION:

##### I. Introduction

The Nuclear Regulatory Commission (NRC) has received, by letter dated April 22, 2004, a request to renew NRC License Nos. 37-00030-02 and 37-00030-08 for the Safety Light Corporation (Safety Light or the licensee), Bloomsburg, PA. License Nos. 37-00030-02 and 37-00030-08 authorize Safety Light to manufacture devices containing tritium at a facility

ENCL (3)

located at 4150-A Old Berwick Road, Bloomsburg, PA, and to decommission portions of that same facility. These license renewals would authorize the continued manufacture of electron tubes, self-luminous devices, foils, targets, rods, and pins and the characterization and decommissioning of contaminated facilities, equipment and land.

An NRC administrative review, documented in a letter to Safety Light dated April 30, 2004, found the application acceptable to begin a review. If the NRC approves the amendment and renews these licenses, the approval will be documented in an amendment to NRC license Nos. 37-00030-02 and 37-00030-08. If the NRC renews the license, the NRC will need to make the findings required by the Atomic Energy Act of 1954, as amended, and NRC's regulations. These findings will be documented in a Safety Evaluation Report. These license renewals appear to qualify for a categorical exclusion pursuant to 10 CFR 51.22(c)(14).

## II. Opportunity to Request a Hearing

The NRC hereby provides notice that this is a proceeding on an application to renew NRC License Nos. 37-00030-02 and 37-00030-08, authorizing Safety Light to continue to manufacture electron tubes, self-luminous devices, foils, targets, rods, and pins and to characterize and decommission portions of its Bloomsburg facility. In accordance with the general requirements in Subpart C of 10 CFR Part 2, as amended on January 14, 2004 (69 FR 2182), any person whose interest may be affected by this proceeding and who desires to participate as a party must file a written request for a hearing and a specification of the contentions which the person seeks to have litigated in the hearing.

In accordance with 10 CFR 2.302(a), a request for a hearing must be filed with the Commission either by:

1. First class mail addressed to: Office of the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemakings and Adjudications;

2. Courier, express mail, and expedited delivery services: Office of the Secretary, Sixteenth Floor, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852, Attention: Rulemakings and Adjudications Staff, between 7:45 a.m. and 4:15 p.m., Federal workdays;

3. E-mail addressed to the Office of the Secretary, U.S. Nuclear Regulatory Commission, [hearingdocket@nrc.gov](mailto:hearingdocket@nrc.gov); or

4. By facsimile transmission addressed to the Office of the Secretary,

U.S. Nuclear Regulatory Commission, Washington, DC, Attention: Rulemakings and Adjudications Staff, at (301) 415-1101; verification number is (301) 415-1988.

In accordance with 10 CFR 2.302(b), all documents offered for filing must be accompanied by proof of service on all parties to the proceeding or their attorneys of record as required by law or by rule or order of the Commission, including:

1. The applicant, Safety Light Corporation, 4150-A Old Berwick Road, Bloomsburg, Pennsylvania 17815, Attention: Bill Lynch; and,

2. The NRC staff, by delivery to the Office of the General Counsel, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852, or by mail addressed to the Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001. Hearing requests should also be transmitted to the Office of the General Counsel, either by means of facsimile transmission to (301) 415-3725, or by e-mail to [ogcmailcenter@nrc.gov](mailto:ogcmailcenter@nrc.gov).

The formal requirements for documents contained in 10 CFR 2.304(b), (c), (d), and (e), must be met. However, in accordance with 10 CFR 2.304(f), a document filed by electronic mail or facsimile transmission need not comply with the formal requirements of 10 CFR 2.304(b), (c), and (d), as long as an original and two (2) copies otherwise complying with all of the requirements of 10 CFR 2.304(b), (c), and (d) are mailed within two (2) days thereafter to the Secretary, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemakings and Adjudications Staff.

In accordance with 10 CFR 2.309(b), a request for a hearing must be filed by August 30, 2004.

In addition to meeting other applicable requirements of 10 CFR Part 2 of the NRC's regulations, the general requirements involving a request for a hearing filed by a person other than an applicant must state:

1. The name, address and telephone number of the requester;

2. The nature of the requester's right under the Act to be made a party to the proceeding;

3. The nature and extent of the requester's property, financial or other interest in the proceeding;

4. The possible effect of any decision or order that may be issued in the proceeding on the requester's interest; and

5. The circumstances establishing that the request for a hearing is timely in accordance with 10 CFR 2.309(b).

In accordance with 10 CFR 2.309(f)(1), a request for hearing or petitions for leave to intervene must set forth with particularity the contentions sought to be raised. For each contention, the request or petition must:

1. Provide a specific statement of the issue of law or fact to be raised or controverted;

2. Provide a brief explanation of the basis for the contention;

3. Demonstrate that the issue raised in the contention is within the scope of the proceeding;

4. Demonstrate that the issue raised in the contention is material to the findings that the NRC must make to support the action that is involved in the proceeding;

5. Provide a concise statement of the alleged facts or expert opinions which support the requester's/petitioner's position on the issue and on which the requester/petitioner intends to rely to support its position on the issue; and

6. Provide sufficient information to show that a genuine dispute exists with the applicant on a material issue of law or fact. This information must include references to specific portions of the application that the requester/petitioner disputes and the supporting reasons for each dispute, or, if the requester/petitioner believes the application fails to contain information on a relevant matter as required by law, the identification of each failure and the supporting reasons for the requester's/petitioner's belief.

In addition, in accordance with 10 CFR 2.309(f)(2), contentions must be based on documents or other information available at the time the petition is to be filed, such as the application or other supporting documents filed by the applicant, or otherwise available to the petitioner. Contentions may be amended or new contentions filed after the initial filing only with leave of the presiding officer.

Requesters/petitioners should, when possible, consult with each other in preparing contentions and combine similar subject matter concerns into a joint contention, for which one of the co-sponsoring requesters/petitioners is designated the lead representative. Further, in accordance with 10 CFR 2.309(f)(3), any requester/petitioner that wishes to adopt a contention proposed by another requester/petitioner must do so in writing within ten days of the date the contention is filed, and designate a representative who shall have the authority to act for the requester/petitioner.

In accordance with 10 CFR 2.309(g), a request for hearing and/or petition for leave to intervene may also address the

selection of the hearing procedures, taking into account the provisions of 10 CFR 2.310.

### III. Further Information

Documents related to this action, including the applications for renewals and supporting documentation, are available electronically at the NRC's Electronic Reading Room at <http://www.nrc.gov/reading-rm/adams.html>. From this site, you can access the NRC's Agencywide Document Access and Management System (ADAMS), which provides text and image files of NRC's public documents. The ADAMS accession numbers for the documents related to this Notice are: Safety Lights renewal requests for NRC License No. 37-00030-02, ADAMS accession no. ML041310318; and NRC License No. 37-00030-08, ADAMS accession no. ML041310328. Persons who do not have access to ADAMS or who encounter problems in accessing the documents located in ADAMS, should contact the NRC PDR Reference staff by telephone at (800) 397-4209 or (301) 415-4737, or by e-mail to [pdr@nrc.gov](mailto:pdr@nrc.gov).

These documents may also be viewed electronically on the public computers located at the NRC's Public Document

Room (PDR), O-1 F21, One White Flint North, 11555 Rockville Pike, Rockville, MD 20852. The PDR reproduction contractor will copy documents for a fee. They are also available for inspection and copying for a fee at the Region I Office, 475 Allendale Road, King of Prussia, PA 19406.

Dated in King of Prussia, Pennsylvania, this 23rd day of June, 2004.

For the Nuclear Regulatory Commission.  
Marie Miller,  
Chief, Decommissioning Branch, Division of  
Nuclear Materials Safety Region I.

### NUCLEAR REGULATORY COMMISSION

#### Governors' Designees Receiving Advance Notification of Transportation of Nuclear Waste

On January 5, 1982 (47 FR 596 and 47 FR 600), the U.S. Nuclear Regulatory Commission (NRC) published in the Federal Register final amendments to 10 CFR parts 71 and 73 (effective July 6, 1982), that require advance notification to Governors or their

designees by NRC licensees prior to transportation of certain shipments of nuclear waste and spent fuel. The advance notification covered in part 73 is for spent nuclear reactor fuel shipments and the notification for part 71 is for large quantity shipments of radioactive waste (and of spent nuclear reactor fuel not covered under the final amendment to 10 CFR part 73).

The following list updates the names, addresses, and telephone numbers of those individuals in each State who are responsible for receiving information on nuclear waste shipments. The list will be published annually in the Federal Register on or about June 30 to reflect any changes in information.

Questions regarding this matter should be directed to Rosetta O. Virgilio, Office of State and Tribal Programs, U.S. Nuclear Regulatory Commission, Washington, DC 20555, (Internet Address: [rov@nrc.gov](mailto:rov@nrc.gov)) or at (301) 415-2367.

Dated in Rockville, Maryland this 14th day of June 2004.

For the U.S. Nuclear Regulatory Commission.

Paul H. Lehman,  
Director, Office of State and Tribal Programs.
